

## HEINLEIN GENEALOGY

### John Heinlein, father (1836 to 1919)

We have finally finished our research on your Heinlein family. As you are already aware, we encountered some difficulty along the way as the records we needed were still housed in their respective parishes. Contacting these churches and getting them to respond to our requests was challenging. We have identified the children born to John Heinlein and his wife, Margaretha Wacker, but were not able to get copies of their baptisms as the parish did not have the means to provide us with photocopies. We also obtained the marriage of this couple and the baptism of Johann Heinlein in a different parish. The researcher traveled to Schornweisach to search their church records in person and was able to document the birth family of Johann Heinlein, learning also the name of his grandfather.
